SMEC Wins Major Transport Project in Queensland, Australia

16 January 2017

SMEC, in joint venture with GHD and construction partner CPB Contractors, has been awarded a contract by Transurban for the detailed design and construction of the Logan Enhancement Project.

The Logan Enhancement Project comprises the upgrade of parts of the Logan and Gateway Extension motorways, including improving key congestion hot spots and constructing new south-facing ramps at Compton Road. The project will deliver a safer and more efficient motorway network by relieving local traffic congestion and reducing travel times.

You can watch a flythrough of the final concept design here:
